

List of RFR referencing syndicated and bilateral loans

This document sets out a list of syndicated and bilateral loans executed to date which reference near risk-free rates ("RFRs").¹ In particular it sets out the following types of transactions which have been seen in the loan market to date:

- (i) syndicated / club loans which reference LIBOR but contain an in-built switch mechanism to reference RFRs;
- (ii) new bilateral loans referencing RFRs directly; and
- (iii) legacy LIBOR referencing bilateral loans amended to reference RFRs.

The purpose of the list is to raise awareness of the fact that transactions referencing RFRs are already taking place in the loan market and, in particular, outline the key conventions used in those transactions. Conventions in the loan market have been evolving and the list is ordered with the most recent transactions first in each section. The information in this list is compiled from publicly available information. Links to relevant public information (including press releases) are contained within the list below.

Please note that this list is not a fully comprehensive list of all market transactions referencing RFRs. Given the private nature of the loan market, it may be that other transactions referencing RFRs have been entered into but have not been publicly announced or identified for this list. In addition, there may be gaps in the table where information has not been made public.

Although the loan market is a private one, in order to assist with the transition from LIBOR to RFRs, we would encourage lenders and borrowers going through the process of transition from LIBOR to disclose the fact that transactions have taken place referencing RFRs and the conventions used (to the extent not commercially sensitive) in order to help drive momentum, transparency and the development of conventions in the loan market.

This document reflects deals announced as at the date of this document and will be kept updated from time to time. If you would like to provide information for inclusion in this table, please contact kam.mahil@lma.eu.com.

For an explanation of the RFR-related terms used in this document, please refer to the LMA LIBOR/RFR Glossary of Terms (available on the LMA website).
